## **Jackson Thornton Technologies Named IBM *Premier Business Partner***

Montgomery, AL – December 20, 2011 – Jackson Thornton Technologies, LLC (JTT) recently announced that IBM has awarded the company its highest partnership level identification, *IBM Premier Business Partner*. IBM recognized JTT for its continued support, development, competency and customer satisfaction in the use of IBM business tools to provide real world solutions to the IT marketplace.

The *Premier Business Partner* designation is reserved for a small percentage of IBM Business Partners that have achieved high standards in such areas as technical expertise and customer satisfaction. Of the more than 1,500 firms selling IBM servers in the Americas, approximately 150 companies reach *Premier* status.

"This is quite an accomplishment for our team," noted Patti G. Perdue, Jackson Thornton Principal and Managing Partner of JTT. "We take great pride in our client relationships and this honor confirms that commitment to excellence."

"We are honored to be recognized by IBM with this prestigious level of business partnership," said Danny Jeter, Sr. Manager and leader of Jackson Thornton Technologies. "JTT provides our clients with the most reliable, efficient and secure technology tools available in the industry. We will continue to leverage our relationship with IBM so as to provide real-time solutions to our customers."
