

TECHNOLOGY SOLUTIONS

**JACKSON
THORNTON**
TECHNOLOGIES

Set the bar higher.

Jackson Thornton Technologies offers premier information technology solutions.

Because we understand the technology requirements and demands that organizations face, our skilled IT professionals help you manage and control your resources — with comprehensive, proactive services and support that optimize your day-to-day operations.

We'll meet with you to discover your individual system needs, then formulate a customized strategy to fulfill them. From implementation through continual maintenance and support, we'll ensure your system functions the way it's designed to: with maximum efficiency.

No matter the size of your business, our engineers can create a system where everything works together. With Jackson Thornton Technologies, you'll have the right solution for you.

Managed IT Services

Our team provides solutions for all your technology needs, whether full outsourcing or complementing your existing resources. You can focus on your business, while we save you time, money, and technology-related headaches.

Cybersecurity Services

We reveal areas where your organization's data could be at risk of being lost, stolen or misused. By assessing the current state of your systems, we help safeguard your data and implement changes when needed.

IT Strategic Planning and Review

We can work with you to create a strategy for growth and management of your IT program. We can also review your current strategy to assess areas of strength and offer options for improvement.

Cloud Computing

JTT helps you understand cloud technology solutions and how best to use them for your organization, including maximizing your security and enabling complete disaster recovery.

Business Continuity

Our consultants create a plan for systems of prevention and recovery so your business processes can continue during a time of emergency or disaster.

Hardware Sales and Implementation Services

Our team understands the importance of project implementation, and provides the necessary skills, experience, and resources to implement and manage the ideal solution for your technology systems.

To discuss *your* organization's needs, please call us today at 877.226.9091 or email info@jttconnect.com for more information.
